her preliminary hearing is not known. 'Squire Fortune stated Friday night that it would probably be tomorrow morning. An inquest was held yesterday morning in Diuguid's undertaking parlors by 'Squire J. W. Fortune, acting as coroner, and the following jury: J. W. Lair, E. V. Hammersley, N. H. Almond, R. R. Guills, Jesse Brown and J. H. Lindsay. Dr. J. Wyatt Davis informed the jury that the infant's death had apparently resulted from strangulation. After the inquest, the doctor made a thorough investigation with the result that he declared the baby had been born normal, was alive and healthy and that it had died from strangulation. He said it appeared as though the child had been held by the throat until death resulted .-

Miller Cord Tires were tested by May C. Carpenter on a 22-passenger ints, averaging a 3-ton load each trip. The first tire on a rear wheel ran 23.700 miles without a blowout, and was never removed from the wheel. The second was punctured by railroad spike at 5,000 miles, but when repaired ran 12.000 miles more without a blowout. On a front wheel the Miller ran 22,000 miles without a blowout. All were passenger-type tires. But don't expect that Millers, under all conditions, can match some exceptional mileage.

Why Mileage Varies A Cord Tire gives vastly greater service than a Fabric Tire.

An oversize tire will vastly excel a tire that is undersize. Care, load and roads affect tire service greatly. Millers are uniform tires. That is a major reason for their supremacy. But uniform tires will vary with
